Public Meeting Notice – California Electricity Generation Facilities Standards Committee

April 7, 2004
3 pm - 5 pm

California Public Utilities Commission
505 Van Ness Avenue, Auditorium
(Corner of Van Ness Avenue and McAllister Street)
San Francisco

BACKGROUND

Public Utilities Code Section 761.3 establishes a process for the adoption and implementation of maintenance and operations standards for many of the electric power plants that serve California. First, the California Electricity Generation Facilities Standards Committee (Committee) adopts and revises the standards. Then, the California Public Utilities Commission (Commission) implements and enforces the standards adopted by the Committee. Various generating facilities including many nuclear, publicly owned, and qualifying facilities have been exempted from maintenance and operations standards. (See Public Utilities Code Section 761.3(d), (h) for further details.)

For more information on the Commission's proceeding to implement these standards, please see the California Public Utilities Website: http://www.cpuc.ca.gov/proceedings/R0211039_doc.htm.

APRIL 7TH MEETING

At its meeting on April 7th, the Committee will consider a final draft of (and possibly adopt) Logbook Standards for Hydroelectric Generating Facilities, and hear a progress report on the development of Operations Standards. (A complete and more detailed agenda appears on the third page of this notice.)

The policy of the Committee and the Commission is to schedule hearings, meetings, workshops and similar events in locations accessible to people with disabilities. To verify that a particular location is accessible, please call: Calendar Clerk (415) 703-1203. If specialized accommodations for the disabled are needed (e.g., sign language interpreter), those requesting the accommodations must call the Commission's Public Advisor at (415) 703-2074, TTY 1-866-836-7825 or (415) 703-5282 at least three working days in advance of the event.

NOTICES AND PARTICIPATION

The Committee is distributing this meeting notice to a list of generators that may have an interest in the standards. You are not required to respond to this notice. However, if you wish to be placed on the joint service list for the work of both the Committee and Commission, please notify: the Process Office, Public Utilities Commission, 505 Van Ness Avenue, Room 2000, San Francisco, CA 94102 (Process_office@cpuc.ca.gov).

Be sure to say that you want to be added to the service list for proceeding R02-11-039. Please provide both your e-mail and physical address. The Committee is sending this notice to parties already on the joint service list as well as to the mailing list mentioned above. If you are already on the joint service list, you do not have to contact the Process Office in order to stay on that list.

If you wish to participate in Committee activities you may attend a Committee meeting or respond to notices requesting comments that are sent out to the service list. 3/29/04 A02-05-004 Southern California Edison Company (U 338-E), for Authority to Increase, among other things, its Authorized Revenues for Electric Service in 2003, and to Reflect that Increase in Rates.
I02-06-002 Investigation on the Commission's own motion into the rates, operations, practices, services and facilities of Southern California Edison Company.

Summary: On March 24, 2004, Marcel Hawiger of The Utility Reform Network (TURN), met with Cmmr. Wood in San Francisco. Also present were Steven Weissman, advisor to Cmmr. Wood, and Robert Finkelstein, Executive Director of TURN. Written materials (attached to the notice) were used. Hawiger stated that Southern California Edison Company's (SCE) Issues Summary distributed during an ex parte meeting repeated various arguments from SCE's previous filings which have been rebutted. Hawiger stated that TURN substantially supports the proposed decision (PD), the service guarantees adopted by Cmmr. Wood's alternate, and that TURN prefers the ALJ Wetzell's PD adoption of no reliability or safety incentives. Hawiger stated that TURN recommends that the Commission amend the proposed decisions by reducing or eliminating the service establishment charge. Hawiger addressed SCE's contentions regarding SONGS capital disallowance, pole replacement costs and customer deposits as an offset from rate base. Finkelstein discussed TURN's position on depreciation and noted that SCE's arguments regarding increase negative net salvage costs was based on compliance with environmental regulations in effect since the mid-80's; and on an alleged increase in contractor costs which is not supported by the record.
